

1. Information Technology and Organizational Integration
2. Building Information Systems to Integrate the Manufacturing Supply Chain
3. Venture Capital and Innovation in Information Technology: Evaluation of the French Public Policy
4. Remote Information Organization and Decentralized Education ;
5. Information Technologies and Corporate Performance: Review and Application to France
6. Impact of Information Technology on the Policies of Export Processing Zones: Comparison between the Multimedia Super Corridors
7. Information Networking as an Instrument of Sustainable Development: The Photovoltaic Example
8. Information Technology and Competitive Advantage: The Integration of Organizational and Technological Resources
9. Information Technology and the Rate of Internationalization
10. Information Strategies: Motor Dealerships and the Porter generic strategy concept
11. The development of strategic information systems in the knowledge-based, focusing on core competency development
12. An analysis of the learning impact of Information System implementations in the Small to Medium-sized Enterprise (SME) retail environment
13. Information Strategy and Performance
14. New Information Technologies in the Old Political Economy: An Exploration of a Community-based GIS for Improving Services to the Poor in City(.... )
15. Incorporation of Competitive Pricing Information in Revenue Management Models for Hotels
16. Simple Newsvendor Heuristics for Multi-echelon Distribution Networks

17. Analysis of Airline Passengers' Price Elasticity and Ticketing Behavior
18. Optimizing Decentralized Sales through Capacity Allocations in the Sea
19. Cargo Industry and Promotions in the Automotive Industry
20. An Analysis of Pricing and Lead time Policies within the Marketing/Operations Interface
21. Robust Optimization for Freight Transportation Problems
22. Joint Product Development and Inter-firm Innovation
23. Inventory Control in a Build-To-Order Environment
24. The Design of Incentives for the Management of Supply and Demand
25. Managing Uncertainty in Engineering Design using Imprecise Probabilities and Information Economics
26. Ranking and Selection Procedures for Binomial and Multinomial Data
27. Extended CONWIP-Kanban System: Design, Control, and Analysis
28. Scheduling a 2-Machine Finite Buffer Flow Shop for the Electronics Industry
29. Formal Methods of Value Sharing in Supply Chains
30. Multi-Tier Inventory Systems with Space Constraints
31. Evaluation of Postponement Strategies for Mass Customization
32. The Stochastic Vendor Managed Inventory Problem and its Variations
33. Interdivisional Transfer Pricing
34. A Comparison of Two Country Risk Assessment Approaches
35. Improvement of the management of the container transport system.

37. A Study of the Relationship between Investments in information technology and Institutional Outcomes in Higher Education
38. A study on the adoption and diffusion of information and communication technologies in the banking
39. Populating the Specificity Frontier: IT-Support for Dynamic Organizational Processes
40. Multi-Party Information Systems Development: The Challenge of Cross-Boundary Collaboration
41. Essays on Structure and Competition in Electronic Markets
42. Let a Thousand Gardeners Prune: Cultivating Distributed Design in Complex Organizations
43. Inventory Control for High-Technology Capital Equipment Firms
44. Analyzing the Make-to-Stock Queue in the Supply Chain and e-Business Settings
45. Pricing Bundles of Products and Services in the High-Tech Industry
46. Supply Chain Design: Capacity, Flexibility and Wholesale Price Strategies
47. Essays on the Role of Location in Strategy
48. Managing Innovation Development across Borders in the Multinational Firm
49. Capability, Knowledge, and Innovation: Strategies for Developing the Capability to Mobilize Knowledge and Create New Knowledge for Innovation
50. Resources and Capabilities in High-Tech Entrepreneurship: A Study of Two Generations of Chinese Startups
51. The development of strategic information systems in the knowledge-based, focusing on core competency development
52. Determining the relative productivity of bank branches through Data Envelopment Analysis

## Thesis Title samples from other universities

53. Determining the relative productivity of automotive dealers through Data Envelopment Analysis
54. Branding in Business-to-Business markets
55. The Role of Brand Names in Determining Image Purchase Intentions for Private Label Brands

Thesis title samples
